

This Transition Fair is going to allow for students, parents, and educators to know what the community and surrounding areas have to provide for students who are transitioning to life after high school.

This is going to be a virtual tour of the resources with the coastal communities and how they are accessed by the individuals and their families.

Students, families and educators will be able to ask questions, get contact information, and discover the opportunities that exist for individuals once they have completed their secondary education.

Charting the Course

October 28, 2020

8:00 am-12:00 pm

Virtual Event

Workshop #1648184
