

COMMUNICATION *Is Behavior*

Increasing Communication Skills for Students with Autism

October 6, 2020

Description:

Establishing a successful program for communication skills is one of the most essential and challenging aspects of providing an equitable education for students receiving special education services. By utilizing a verbal behavior approach and evidence based practices, you can foster language skill acquisition for your students.

This workshop will assist you to:

- evaluate appropriate communication systems based on student strengths and needs
- learn how to increase the frequency of language usage among students
- successfully implement programming which allows students to access curriculum while also creating robust communication repertoires

Workshop Details:

When: October 6, 2020
Where: ESC 2 room 3-19
Fee: \$200 non-coop/ \$100 coop
Time: 9:00 am – 4:00 pm
Workshop #: 1652598
