ALL CLASSES 8:30 am - 12:00 pm  
Fee: \$150 for half-day virtual training

### Enhanced-Initial 2-Day Nonviolent Crisis Intervention® Trainings– Virtual

2 DAY TRAINING

This program is recommended for individuals who have not been trained in Nonviolent Crisis Intervention® strategies or for those who have not received a refresher course within one year of the initial 2-day training.

This enhanced training program will provide additional learning modules, expanded perspectives and more physical intervention options. Participants will be able to recognize the four levels of a crisis, determine appropriate interventions for each level, learn personal safety techniques, practice a nonviolent team restraint to be used as a last resort, and receive CPI certification. They will be able to organized their thinking around risk behavior and guide their day- to- day decision making.

Any staff who may or has, restrained a child needs to participate in the legislatively mandated state level online training TBSI-Texas Behavior Support Initiative plus this approved restraint training.
