

TEXAS AUTISM SUPPLEMENT 101

11 strategies for the ARD/IEP Committee

Texas Law requires that every ARD/IEP committee must consider and/or implement several practices into the education plan of a student with Autism. Frequently misunderstandings regarding these practices occur to the detriment of a student's free and appropriate public education. This workshop will cover the legal implications of the Texas Autism supplement, define each component clearly, and describe how each of these considerations can benefit the student with an Autism spectrum disorder.
