

# GOALBOOK Toolkit

Build teacher capacity to design specialized, TEKS-aligned instruction that reaches all of your students.

**Goalbook Toolkit** is an online tool specifically designed to empower educators working with specialized student populations to skillfully vary levels of instructional support by weaving together the “Golden Thread” of special education.

Identifying  
**Present Levels**

Developing  
**IEP Goals**

Designing  
**Instruction**

**Michele McKinley**  
President of TCASE,  
Executive Director of Special Programs at Manor ISD

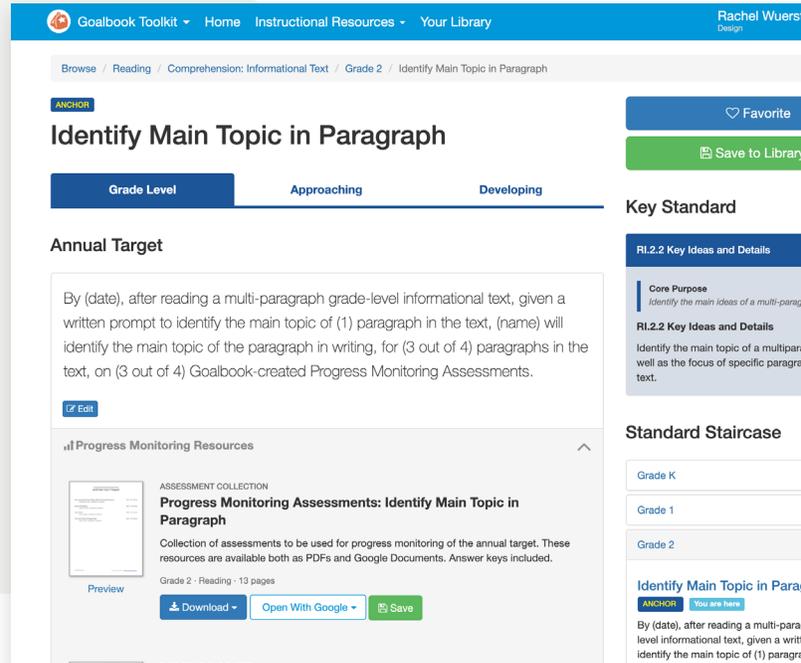

*“Goalbook Toolkit has been a game-changer for our teachers and students. The dots are finally connecting between PLAAFPS, measurable goals, and specially designed instruction! As a result, we’re seeing meaningful increases in students’ documented progress.”*

Over 600 districts across 45 states use Goalbook Toolkit to identify data-based present levels, develop meaningful IEP goals, and implement IEPs with evidence-based, specially designed instruction.

"Goalbook has been a perfect fit for our district. The product quality and customer service go above and beyond our expectations. Finding a tool that has all of the resources to support our students receiving special education services is no easy task. Goalbook delivers! The sequence of design, support, and instructional strategies flows so smoothly the team has all the resources they need in a one-stop shop. The barriers have been removed and our staff are now on track to provide the best possible support available to meet our students' educational outcomes.

**Corey Golomb**  
Assistant Superintendent | Specialized Academic Support Services  
Fort Worth Independent School District

## Features

### Deconstruct TEKS Standards

Unpack the core purpose of the standard to ensure students are given authentic access to the TEKS. Identify prerequisite skills to fill in gaps using our vertically-aligned Standard Staircase..

### Tailor Measurable TEKS-Aligned Goals Using Multiple Levels of Support

Create goals that are truly individualized. Every standard features fully-customizable learning goals at grade level, mild, moderate, and intense levels of support.

### Monitor Progress with TEKS-Aligned Assessments and Instructional Resources

Assess and adapt instruction to ensure students are making progress on their learning goals. The most foundational TEKS standards feature printable assessment items and instructional resources, including graphic organizers, adapted texts, and manipulatives.

### Instructional Strategies Aligned With Universal Design for Learning

Design instruction that removes barriers to learning and improves access. Every goal integrates multiple research-based instructional strategies with tools and resources to successfully implement them.

### Develop and Assess Student Present Levels

Ensure instruction is specially designed by understanding the student's unique strengths and areas of need. The Present Levels Wizard guides educators in determining students' performance on learning skills across a variety of domains, so they can personalize instruction and set challenging and achievable goals.

### Ongoing Professional Learning and Support

We support your team with a variety of professional learning options to advance knowledge of Goalbook Toolkit and professional practice.
