Campus Leadership Cooperative (CLC)

Elementary Leadership

Campus leaders must continuously evaluate their leadership knowledge and skills in the campus components that impact student performance. The Campus Leadership Cooperative (CLC) will provide the tools for campus leaders to acquire or expand necessary competencies to be effective leaders in curriculum, instruction, assessment, supervision, professional development, school organization, climate and effective communication. The CLC is designed to provide in-depth and timely information on critical issues, training, and networking opportunities for campus leaders and selected related personnel.
